

Digital Sorcery specializes in independent film and HD shoots. We provide a high-end location recording package with multi channel, redundant, digital hard disk recorder, multiple wireless systems and numerous microphone options including shotgun, super-cardioid and lavalier. Most of all, we work within your budget to get the best sound possible.

We are currently working on a new reel, but if you would like to see some samples of our work:

"Angel of Death". This Web Series was shot with two Red Cams and stars Zoe Bell, Lucy Lawless & Doug Jones. It came out on DVD this July. The Director, Paul Etheredge, is listed as one of our references.

"Women In Trouble" (Starring Carla Gugino, Josh Brolin, Simon Baker, Joseph Gordon-Levitt and more) This feature film was shot on HD this scene features Carla Gugino & Connie Britton. Written & Directed by Sebastian Guitierrez. We worked with Carla Gugino on a short film called "Sparks" and she liked us so much she talked her boyfriend, Sebastian, into hiring us for "Women in Trouble". They hired us for the sequel "Elektra Luxx" and we worked with them again this February on a film sponsored by Hulu called "Girl Walks into a Bar" which should hit the web this summer. It is a very small crew, with no Producer or AD, so we have listed our DP Cale Finot is listed as a reference.

"Pretty Ugly People", A wonderful feature comedy shot in Montana on Super 35. It stars Missi Pyle, Melissa McCarthy, Josh Hopkins, Octavia Spencer and Allison Janney. Producer Brunson Green is listed as one of our references.

Very truly yours,
