

Travis Wade Kidd

Production Sound Mixer / Boom Operator

I am a sound mixer and boom-op with 12 years of experience. I have run sound on one feature film and been boom-op on one other feature, as well as many short fiction films. I am very comfortable on a narrative film set. I have also been a mixer on hundreds of days worth of non-fiction shoots and am ready for any chaotic, unscripted situation. I have recorded sound in some of the harshest environments this planet has to offer: from the bitter cold of Yellowstone National Park in Winter, to the heat, humidity, and torrential rain of the Amazon rainforest. I am willing to go wherever the job takes us.
